| 'SO:ZE |

SOZE is a combined café and coffee micro roastery located in the very heart of Faaborg here in Helios Film- og Kulturhus which is also a cinema!

We are open seven days a week from 10 a.m. to 8 p.m.

Our guests say we have the town's best coffee - and we would like to think that we also have the best location with the open terrasse overlooking the archipelago and the ferries in the harbor.

Having our own micro roastery, SOZE coffee is always made from selected high quality beans, which we import and roast several times a week right here in the café.

Welcome! This house is a casual spot for everyone. We want you to relax and feel at home!
